A MESSAGE FROM YOUR PRESIDENT

It is only through the help of Directors of Nursing, Directors of Nursing Schools, Hospital Administrators and Nursing Service Educators that we can continue to police the nursing profession by receiving prompt, written complaints regarding nursing employees' unprofessional conduct in caring for the sick. There are not enough investigators, board members or professional board employees to monitor our profession in the manner that we would like. However, through your support we can continue to work toward a goal of competent patient care and protection of the public which is our main objective. Any complaint should be forwarded in writing to the following:

Mrs. Margaret J. Driver, R.N.  
Acting Executive Director  
Missouri State Board of Nursing  
P.O. Box 656  
Jefferson City, Missouri 65102

\*\*\*

IMPOSTERS

At various times, persons have tried to become employed at hospitals, nursing homes, etc, without a valid R.N. or L.P.N. Missouri license and sometimes by forging licenses. The latest one is a lady who uses any combination of the following names:

Mary Louise	Banks
Antionette	Johnson
Mary L.	Selby
	Grandberry

Please verify the validity of any license before employing a nurse. It is illegal to practice nursing in Missouri without a current license. The Employer MUST see the wallet-sized license. If you note any alterations, please call the Missouri State Board of Nursing at (314) 751-2334 and follow-up with a written letter.

#### EMPLOYERS PLEASE NOTE

Employers of nursing personnel are urged to verify that the persons they hire are registered professional nurses and licensed practical nurses eligible to practice nursing in Missouri. Please ascertain that:

1. The nurse has a valid and current license to practice as a registered professional nurse or licensed practical nurse in Missouri;
- or
2. The nurse has made application for license by endorsement in Missouri and has in his/her possession a temporary work permit from the Missouri State Board of Nursing;
- or
3. New graduates from professional or practical out-of-state schools must have a "Permission for Out-of-State Graduates to Work Pending Results of First Examination" permit from the Missouri State Board of Nursing;
- or
4. Our own new graduates of Missouri State Accredited Schools may work pending the results of the first licensing examination scheduled by the Board.

\*\*\*\*

#### CURRENT LICENSURE

All employers should check the current status of licenses and any irregularity that the license shows should be reported to the Board of Nursing immediately. The current license is dated July 1, 1979 to June 30, 1980. The R.N. license is white with black lettering and the L.P.N. license is tan (screened brown) with black lettering.

\*\*\*\*

#### PERSONNEL FILES MUST DESIGNATE "COPY"

The members of the Missouri State Board of Nursing adopted a position that when a license is copied for personnel files, the copy MUST be designated by writing or stamping "COPY" across the front.

ANNUAL CONFERENCE FOR REVISION OF MINIMUM STANDARDS FOR  
ACCREDITED PROGRAMS OF PROFESSIONAL NURSING AND  
REGISTRATION OF PROFESSIONAL NURSES IN MISSOURI

The members of the Missouri State Board of Nursing wish to give you, as directors of professional schools of nursing, an opportunity to have input into the revision. Therefore, a meeting for all directors (we stress that we wish the directors ONLY and not a representative) has been planned for February 7, 1980. Please mark your calendars now.

This conference will be held at 3523 North Ten Mile Drive, Jefferson City, Missouri, in the conference room, beginning at 9:00 A.M. Coffee will be provided. Lunch will be on your own from 12:00 to 1:00 p.m. There are several eating places in the nearby Capital Mall and we will try to complete the conference at approximately 3:30 p.m.

During the conference, one hour will be designated for the directors to discuss, ask questions and become informed concerning the future test plan draft for State Board Test Pool Examinations. As you know, the test plan draft which you have previously received in the mail is a working draft and is not the final plan. If you have not already discussed this, as a director of a professional program with your faculty, then we urge you to do so now. Please refer to our letter of November 28, 1979. The members of the Missouri State Board of Nursing feel that any questions and thoughts that you may have regarding this test plan should best be shared with all of the directors from our professional programs. We felt that you could discuss it much better if everyone comes to the annual conference informed, thus, the test plan draft was mailed to you prior to the conference. Please remember that we will only discuss this for one hour at the Minimum Standards Revision Conference. It would be a good idea to make a concise list of your questions on the test plan and bring it with you to the conference.

ANA'S 1985 PROPOSED ENTRY LEVEL

Resolutions 56, 57 and 58 were introduced at the 1978 American Nurses' Association convention which deal with the entry into nursing practice. These resolutions were presented by the Commission on Nursing Education and amended and approved by the House of Delegates. They provide a framework for education of nurses in the future.

These resolutions are NOT Missouri law. They merely state the intent of the ANA House of Delegates to provide direction for the future of nursing education.

BOARD POSITION AND POLICY

The following position and policy were unanimously adopted by the Board Members on October 19, 1979:

1. The Board also established a policy that if a school of nursing's failure rate on the State Board Test Pool Examination places them on the warning list in two consecutive years, the School Director be brought before the Board of Nursing to exchange information for remedies proposed by the school and that further, the school of nursing be alerted that as of 1980, if a third warning is necessary, the school of nursing will be placed on Conditional Accreditation Status.

2. The Missouri State Board of Nursing endorses the position of the Commission on Graduates of Foreign Nursing Schools for graduates of foreign professional nursing schools to take the examination administered by the Commission as a prerequisite for taking the State Board Test Pool Examination for licensure in Missouri. The Board recommends that any nurse applying for licensure in the State of Missouri, who graduated from a foreign professional nursing school, write the examination offered by the Commission on Graduates of Foreign Nursing Schools prior to entering the United States.

NEW YORK EXAMINATION NOW VALIDATED

The following is a copy of the News Release received by the Missouri State Board of Nursing:

NEW YORK STATE EDUCATION DEPARTMENT

NEWS

Office of Public Information • Arnold Bloom/Director • Chris Carpenter/Assistant Director Albany, New York 12234 Phone(518) 474-1201

FOR IMMEDIATE RELEASE, FRIDAY, OCTOBER 26, 1979

STATE EDUCATION DEPARTMENT TO USE JULY NURSING EXAM

Commissioner of Education Gordon M. Ambach today issued the following statement:

"I have today received a report from the Division of State Police concerning the results of the investigation which the Division conducted at my request of allegations that copies of the national licensing examination in nursing given in July of this year were available in advance.

"The State Police have reported to me that their investigation has disclosed no evidence that any part of the examination was available in advance to any candidate or other unauthorized person, and no evidence of any improper conduct on the part of any person connected with the preparation or administration of the examination.

"The investigation included interviews with many candidates, including many of those named in letters to the Education Department alleging that the examination was available in advance. Those interviews disclosed that all of the candidates interviewed had participated in at least one examination review course, of which several are offered in various parts of this State and elsewhere in the country, and that the majority of them had taken two or more different courses in preparation for the July examination.

"In addition, most of the those interviewed had participated in 'study groups', some of which had hired private tutors.

"The investigation also disclosed that the materials used by some review courses resemble in format the test booklets used in the national examination, and that such materials could be mistaken by a casual observer for official test booklets.

"In light of the results of the State Police investigation, and because we are convinced that the intensive study undertaken by many examination candidates, as disclosed by the investigation, explains the unusually high increases in scores achieved by some candidates, the State Board for Nursing and I have determined that the results of the July, 1979 examination in registered professional nursing will be released to candidates, and will be used for purposes of licensure.

"For that reason, there will of course be no appeal taken from the decision of Supreme Court Justice DeForest C. Pitt which was released today.

"The State Education Department will immediately commence the process of notifying candidates of their grades. Notification to all candidates will be placed in the mail within two weeks.

"The Department will also immediately commence the preparation of licenses for those who have now passed all parts of the examination, and will transmit them to candidates within six weeks.

"The State Board for Nursing and I greatly regret the distress which our earlier action has caused among those who took the July examination. At the same time, on the basis of the evidence then available to us, that action was, we felt, the only responsible course of action available to us in the public interest.

"We know that all candidates, and the public at large, will share with us a sense of profound relief that a painstaking investigation has revealed no flaw in the examination system.

"I extend my sincere thanks to the Division of State Police for their careful and thorough work."

#### LICENSE RENEWALS

License renewals for 1980-1981 will be mailed around the middle of March, 1980. We urge all licensees, and all employers to urge their employees, to renew their licenses as soon as possible after the receipt of the renewal notice in order to insure the processing and receipt of their renewed license prior to the deadline date of July 1, 1980. It is humanly impossible to process over 49,000 renewals if they are all returned to the Board of Nursing near the deadline date. It is certainly to the advantage of all concerned to renew licenses promptly. The application states that the Board cannot guarantee licensure renewal for any application received after June 1 for July 1. Please keep the State Board informed of all address changes so that correspondence will reach you. If you have a name change by reason of marriage, divorce, etc., please furnish the Board Office with a copy of the marriage certificate, divorce decree or an affidavit, properly notarized, stating your legal name. We must have this document before our records can be changed.
